POSTAL REGULATORY
COMMISSION
U.S. DEPARTMENT OF JUSTICE

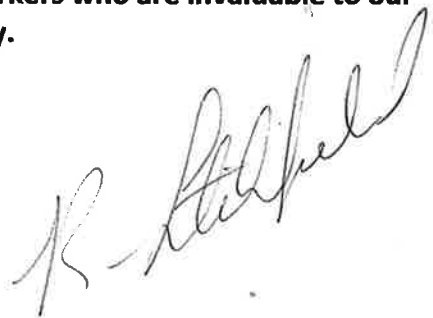

To the Postal Regulatory Committee:

It has been brought to my attention that Louis DeJoy is trying to pass a plan that will hinder the United States Postal Service. I want to object to changes that will close local post offices or slow down first-class mail. When DeJoy took over, my mail was affected to the point that much of what I have mailed has been delayed and much of what I have ordered has not arrived on time.

I had a cake sent for my Mother's birthday that was delayed to the point that the cake was ruined, which resulted in a loss of over \$90. I have friends who need their medication to arrive on time; I have medicine that has been delayed. I have friends that have their retirement checks and Social Security checks that have not come in a timely manner, including my elderly mother. During the COVID pandemic, I chose to use a mail-in ballot; but after the problems with the USPO, I delivered my ballot to the Clerk's Office. I did exactly what I did not want to do...be out in the public around people!

Currently, I use our local post office in Bloomington, Illinois. The postal workers are great, BUT often the lines are long because there are not enough workers at each window. This week, I went on 2 different days where the parking lot was full, and the line was backed up. If this is a problem in my town, I wonder what larger cities are experiencing?

If we have current problems, why would you consider doing things that will make the U.S. Post Office even less efficient or less reliable? I am an educator and know the importance of our postal system. **I am opposed and not willing to settle for a slow-down in Postal Services. I would like for these proposals to be denied. I would like Louis DeJoy to be released from his duties as incompetent and not really supportive of the USPO and the workers who are invaluable to our country. Before the USPO is destroyed, PLEASE get rid of DeJoy.**
